

Address Validation Plugin for Acumatica

PLUGIN FOR ADDRESS VERIFICATION

Address Validation is an extension of the Acumatica Cloud ERP

Address Validation is a complete address verification system built natively with the Acumatica ERP platform, cleaning up CRM addresses with just one click.

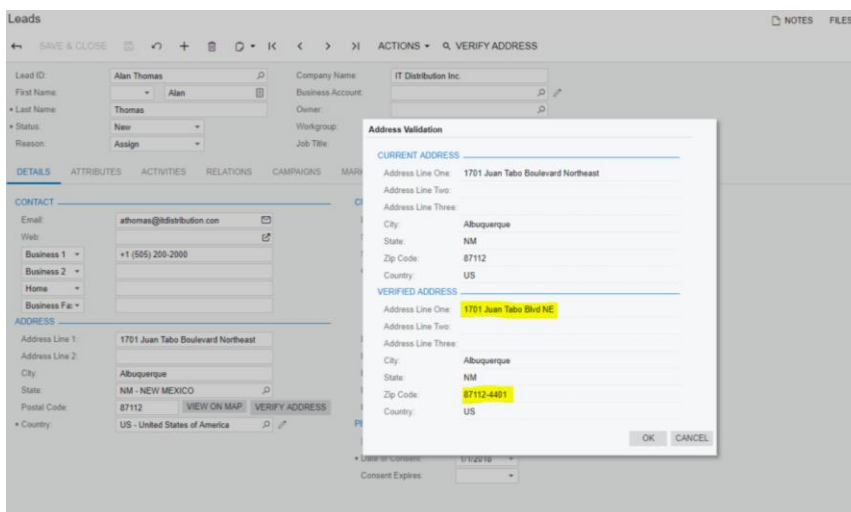

Address Validation offers precise, rooftop latitude and longitude coordinates of U.S. and international addresses by verifying them against the universal databases of USPS, UPS, FedEx & other major shipping carriers and updating them on the ERP platform.

Once you deploy Address Validation on your Acumatica instance, you are ready to verify the billing/shipping addresses of your customers, vendors, leads and contacts. Our framework allows for deployment on SaaS or PCS (Process Cloud Service) and works for small businesses and enterprise users.

Address Validation ensures you will never miss a shipment from a bad address.

Address Validation serves

- B2C/B2B eCommerce Platforms for Products & Services
- Third-Party Transportation/Logistics Companies that Operate with Warehousing & Distribution
- Marketing & Branding Businesses with an Online Presence
- Any Industry (including Field Services) that Accept Addresses in Software/ERP Systems

KEY BENEFITS

- Verify Addresses for your Customers, Vendors, Leads & Contacts, Stored in your ERP Database

GAIN INSIGHT

- Customizable Dashboards for Metrics on your Validated Addresses with User Logs
- Lookup Inquiries for Created & Validated Addresses

ADDRESS VALIDATION FEATURES AND CAPABILITIES

STANDARDIZED POSTAL CODES & FORMATS

Clean your CRM addresses at the entity/transaction level before entering them into your ERP. Invoice & shipment addresses of your customers, leads & vendors are standardized, complete & validated for postal codes & formats.

UP-TO-DATE NCOAs

Changed Addresses/NCOAs within the U.S. & Canada are up-to-date on your ERP. Approximately 40 million NCOAs are registered each year in the U.S.

PROPRIETARY & UNPARALLELED

Our Proprietary Address Engine employs advanced parsing and fuzzy matching for unparalleled results. The Address Validation is a Cloud Services/SaaS tool, effortlessly used on top of the Acumatica ERP.

SYNC W/ GOOGLE MAPS

Through Geocoding, we list all your customers/contacts on Google maps for your Sales Representatives & Field Service Staff.

DOMESTIC & INTL. ADDRESSES

Verify, Correct & Standardize U.S., Canadian & International Addresses.
