ADVANCED REVENUE MANAGEMENT

An easy-to-use yet robust billing and payment subscription management system to help improve your cash flow, billing accuracy, and customer service

- MaxQ's Advanced Revenue Management is a suite of modules that supports you through the entire subscription lifecycle.
- Make complex billing simple with Advanced Billing, an automated, flexible billing system designed to handle even the most complex needs.
- Advanced Payments provides comprehensive payment automation that supports ACH and credit card payments with AR collections capabilities that improves payment collection efforts.
- Based on the newest Power BI technology, Advanced Analytics enables you to visualize your data to uncover insights and optimize decision making.

Features for Maximum Performance

Advanced Billing	A complete, automated revenue management system designed to handle all billing needs.
Advanced Payment Management	Adds Credit Card, EFT/ACH payments with automatic support for dunning notices, collections and other payments notification.
Advanced Analytics	Self-serve, web-based access to reports and analysis to visualize data with predefined or custom dashboards to surface insights and optimize decision making.

KEY BENEFITS

Saves Time

Automated processing of recurring billing, payments and collections significantly improves business performance while saving you time and minimizing errors.

Reduce Administrative Efforts

The automated billing, collections, and renewal processes reduce your administrative efforts. No more spreadsheets!

Improve Cash Flow

The automated processes eliminate manual errors while improving accuracy and reducing failed payments to improve cash flow.

Allow Flexible Schedules

Apply billing and revenue recognition schedules by month, quarter, or yearly as well as customized time-periods, even mixed on same contract.

### Accelerate Decision Making

Powerful reporting, analytics and business discovery tools lead to faster and better business decisions.

Increase Scalability

By automating billing needs and minimizing time-consuming manual efforts, you can improve your business' ability to withstand the pressures of growth.

Improves Customer Experience

Advanced Billing minimizes errors and provides flexible billing options to create subscriber value while Advanced Payments easily processes credit cards and EFT/ACH, and sends electronic notifications to improve customer satisfaction.

Adaptable ERP Software

Implement your revenue and payment management on cloud technology to achieve cost savings and future flexibility.

Bring Your Own Device

MaxQ's ARM integrates with Acumatica to allow you to work from anywhere using your choice of devices. With an interface that is tablet–friendly and optimized for mobile devices, you can work on a PC, Mac, tablet or any other device with a browser.

Scale and Grow

MaxQ's ARM is cloud–based so you can add capacity quickly. Since there are no user–based fees, you can add users in seconds.

Deploy According to Your Needs

Get ARM as a subscription (SAAS) or purchase the license. Deploy on–premises, on a hosted server, or on a cloud platform.

Adapt and Innovate

Get Access to code and web development tools so you can adapt ARM to your existing process.

On-the-Ground Support

ARM is sold through a global network of value added resellers (VARS) who provide business planning implementation, customization, local support, and other services.

Additional Features

Flexible Billing Schedules	Handle billing for your choice of contract type, including one-time, recurring, term and perpetual contracts. The module also supports any combination of usage-based tangible or intangible items, as well as trials, deposits, pre-bills, post bills, and bundles.
Manage Complex Pricing Models	Easily manage complex product and pricing models: software licenses, recurring subscriptions, maintenance agreements, bundled items, SaaS, and complex discount arrangements.
Modify Contract at Anytime	Make changes as needed with the ability to pause, resume, modify, rewrite and cancel billing contracts and/or revenue recognition schedules already in progress.
Real Time Visibility	Gain real–time visibility into current and projected revenue with instant access to business forecasts and reports. Use these visualizations to uncover insights, inform decision making, and optimize growth.
Flexible Payment Options	Advanced Payment module provides comprehensive payment automation that supports ACH and credit card payments as well as multiple currencies and processors.
Supports Template-Based Entries	Utilize templates to set up revenue billing rules for different products, services and subscription bundles with automated revenue generation, recognition and allocation rules.
Renewal Processing	Maximize contract renewal revenue with automated scheduling and management of renewal activities.

Perfect for any business that has subscription or repetitive billing needs.
