

Plan, Spec and Document Management

Find the details you need — fast!
Stay organized, save time and get
your takeoff started sooner.

Don't waste precious time searching for details or performing estimates against the wrong document. STACK's plan, spec and document management tools deliver an intuitive experience for uploading, viewing, searching and organizing your project documents so you can focus your efforts on evaluating, measuring and collaborating.

Overlay Versions

Instantly identify plan updates and avoid takeoff rework

Plan Search

Easily run full text searches within documents and plans

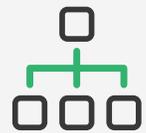

Hyperlinking

Jump directly to details via automatically created hyperlinks

Auto-Name

Automatically name and rename plan pages

Folder Structure

Quickly organize your plans into custom folder trees

Staying organized has never been easier.

Get the simplest, most intuitive solution for managing project plans during the takeoff and estimating process.
