# Velixo

Reporting, budgeting & automation in Excel for Acumatica

Acumatica's premier solution for reporting, budgeting and automating business processes from Excel.

Velixo offers rich financial and operational reports that instantly refresh, are formatted your way, and interact in and out with Acumatica. It also automates and improves live data entry, budgeting and forecasting with unique direct data writeback in real-time. Since Velixo is native in Excel, on desktop or online, it leverages the entire Microsoft 365 ecosystem, bringing extra governance, AI, collaboration, and automated workflows.
